

# AWR | SURGE

D E E P I M P A C T

6<sup>th</sup>-9<sup>th</sup> March 2025

ITC Grand Chola, Chennai

*The AWR World and You*

**SCIENTIFIC PROGRAMME**

## Programme at a Glance - Friday 7<sup>th</sup> March 2025

MADRAS	BOMBAY	CALCUTTA	POONA	BARODA
08:00 – 09:30 hrs <b>The Big Bang</b> <i>German Hernia Society</i>	08:00 – 09:00 hrs <b>Rectus Diastasis Beyond the Acronyms</b> <i>Swiss Association of Hernia Surgery</i>	08:00 – 09:00 hrs <b>Suture Repairs</b> <i>Austrian Hernia Society</i>	09:00 - 09:45 hrs <b>Inguinal 1</b>	09:00 - 09:40 hrs <b>Robotics 1</b>
09:30 – 10:45 hrs <b>Planes and Plans</b> <i>Creighton University School of Medicine</i>	09:00 – 10:00 hrs <b>Groin hernia updates</b> <i>EHS Porto 2026</i>	09:00 – 10:00 hrs <b>Prehabilitation in AWR</b> <i>Austrian Hernia Society</i>	10:00 - 10:50 hrs <b>Inguinal 2</b>	10:05 - 10:50 hrs <b>Upcoming Techniques 1</b>
10:45 – 11:00 hrs <b>Welcome and felicitations for COEs</b> <i>AWR Surgeons Community</i>	10:00 – 11:00 hrs <b>Lateral Hernias</b> <i>Washington University in Saint Louis</i>	10:00 – 11:00 hrs <b>Obesity in hernias</b> <i>Obesity Surgery Society of India</i>	11:00 - 11:50 hrs <b>Inguinal 3</b>	11:00 - 11:50 hrs <b>Upcoming Techniques 2</b>
11:00 – 12:00 hrs <b>Beyond Surgery</b> <i>AWR Surgeons Community</i>	11:00 – 12:00 hrs <b>Keynote Relay from Hall A</b>	11:00 – 12:00 hrs <b>Just one thing</b> <i>AWR Surgeons Community</i>	14:00 - 14:50 hrs <b>Inguinal 4</b>	14:00 - 14:45 hrs <b>Ventral 1</b>
12:00 – 13:00 hrs <b>WWYD?</b> <i>SAGES</i>	12:00 – 13:00 hrs <b>HERnia - Panel Discussion</b> <i>AWR Surgeons Community</i>	12:00 – 13:00 hrs <b>AWR Oscars</b> <i>Indian Association of Gastrointestinal Endo Surgeons (IAGES)</i>	15:00 - 15:45 hrs <b>Innovation</b>	15:00 - 15:50 hrs <b>Ventral 2</b>
13:00 – 14:00 hrs <b>Lunch</b>	13:00 – 14:00 hrs <b>Lunch</b>	13:00 – 13:30 hrs <b>Lunch</b>	16:00 - 16:50 hrs <b>Mesh Matters 1</b>	16:00 - 16:50 hrs <b>Ventral 3</b>
14:00 – 15:30 hrs <b>The Candid Truth: Navigating Contemporary Controversial Topics in Hernia Surgery</b> <i>American Hernia Society</i>	14:00 – 15:00 hrs <b>Highway to Disaster</b> <i>European Hernia Society</i>	13:30 – 14:00 hrs <b>Mélange</b> <i>AWR Surgeons Community</i>	17:00 - 17:50 hrs <b>Mesh Matters 2</b>	17:00 - 17:45 hrs <b>Ventral 4</b>

## Programme at a Glance - Friday 7<sup>th</sup> March 2025

MADRAS	BOMBAY	CALCUTTA	POONA	BARODA
15:30 – 17:00 hrs <b>Talking Technique</b> <i>EHS Paris 2025</i>	15:00 – 16:30 hrs <b>IHC session</b>	14:00 - 15:00 hrs <b>CT for AWR - The Surgical GPS</b> AWR Surgeons Community		
17:00 – 18:00 hrs <b>The AWRSC Angle</b> <i>AWR Surgeons Community</i>	16:30 – 17:30 hrs <b>Making research count in practice</b> <i>Danish Hernia Society</i>	15:00 - 16:30 hrs <b>Advancing groin hernia thoughts</b> Israeli Society of Abdominal Wall Surgery		
18:00 – 19:15 hrs <b>Parliament of Disasters</b> <i>AWR Surgeons Community</i>	17:30 – 19:00 hrs <b>A long night!</b> Association of Minimal Access Surgeons of India (AMASI)	16:30 – 18:00 hrs <b>Legacy of Prof Udawadia</b> <i>(Young surgeons competitive award session) – An IAGES and AWRSC tribute</i>		
	19:15 – 18:00 hrs <b>Annual General Body Meeting</b>	18:00 – 18:30 hrs <b>Panel discussion</b> <i>AWR Surgeons Community</i>		
		18:30 – 19:00 hrs <b>Baxter Panel Discussion</b>		

## Programme at a Glance - Saturday 8<sup>th</sup> March 2025

MADRAS	BOMBAY	CALCUTTA	POONA	BARODA
08:00 – 10:00 hrs <b>Mind what matters</b> <i>AWR Europe</i>	08:00 – 09:00 hrs <b>Cleveland Calling (Online)</b>	08:00 – 09:15 hrs <b>Decoding AI in AWR</b> <i>University of Western Australia</i>	09:00 - 09:50 hrs <b>Ventral 5</b>	09:00 - 09:35 hrs <b>Stoma &amp; Tissue Repairs</b>
10:00 – 11:00 hrs <b>Gyri, Sulci and Bulges</b> <i>AWR Surgeons Community</i>	09:00 – 09:30 hrs <b>Keynote Session (Online)</b> <i>Northwestern University, Chicago</i>	09:15 – 10:30 hrs <b>Atypical and rare hernias (5-pointer series)</b> <i>AWR Surgeons Community/CHS</i>	11:00 - 11:50 hrs <b>Complications 1</b>	10:00 - 10:50 hrs <b>Imaging &amp; Inguinal</b>
11:00 – 12:00 hrs <b>Perspectives</b> <i>AWR Europe Keynotes</i>	09:30 – 10:30 hrs <b>Mesh updates</b> <i>(Industry Sponsored Session)</i>	10:30 – 11:00 hrs <b>Pom pom IPOM</b> <i>AWR Surgeons Community</i>	12:00 - 12:50 hrs <b>Complications 2</b>	11:00 - 11:45 hrs <b>Complications &amp; Components</b>
12:00 - 13:30 hrs <b>Industry Session</b>	10:30 – 12:00 hrs <b>Hiatus hernia - what has changed?</b> <i>Emory University</i>	11:00 – 12:00 hrs <b>Tall Talks</b> <i>AWR Surgeons Community</i>	14:00 - 14:45 hrs <b>Components 1</b>	14:00 - 14:40 hrs <b>Ventral 7</b>
13:30 – 13:45 hrs <b>Lunch</b>	12:00 – 13:30 hrs <b>Crossover - Program Building in Abdominal Wall Reconstruction</b> <i>Carolinas Medical Centre</i>	12:00 – 13:00 hrs <b>Lesser-known operations</b> <i>AWR Surgeons Community</i>	15:00 - 15:45 hrs <b>Hiatus Affairs 1</b>	
13:45 – 15:15 hrs <b>Robotic AWR - here to stay! RAWS</b>	14:00 – 15:00 hrs <b>Novelty in the hernia world: digging deeper</b> <i>Italian Society of Hernia and Abdominal Wall Surgery</i>	13:00 – 14:00 hrs <b>Lunch</b>	16:00 - 16:50 hrs <b>Mesh Matters &amp; Rare Hernia</b>	
15:15 – 16:30 hrs <b>The Known Unknowns</b> <i>ANZ session</i>	15:00 – 16:00 hrs <b>Patient-Focused Hernia Surgery: Crafting Compassionate, Effective, and Comprehensive Care</b> <i>British Hernia Society</i>	14:00 – 15:00 hrs <b>Biomechanics and hernia surgery: a paradigm shift</b> <i>ANZ Hernia Society</i>		

## Programme at a Glance - Saturday 8<sup>th</sup> March 2025

MADRAS	BOMBAY	CALCUTTA	POONA	BARODA
16:30 – 17:30 hrs <b>Open Abdomen: A global narrative/challenges and opportunities</b> <i>Portuguese Society of Surgery</i>	16:00 – 17:30 hrs <b>YT Session</b> <i>AWR Surgeons Community</i>	15:00 – 16:00 hrs <b>Loss of Domain</b> <i>Danish Hernia Society</i>		
17:30 - 18:00 hrs <b>OA: Current trends in global practice</b> <i>Panel Discussion</i>	17:30 – 18:30 hrs <b>Manic Monday</b> <i>AWR Surgeons Community</i>	16:00 – 17:00 hrs <b>Potpourri</b> <i>ASI Chennai Chapter</i>		
18:00 hrs <b>Closing Remarks</b>		17:00 – 17:30 hrs <b>Council of Disasters</b> <i>Chennai Hernia Society</i>		
		17:30 hrs <b>Closing Remarks</b>		

Friday 7<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
<b>The Big Bang</b> <i>German Hernia Society</i> Chairs: <b>Wolfgang Reinpold, Henning Niebuhr, Pramod Shinde, Suchita Chase</b>		
08:00 – 08:10 hrs	I have a dream	<b>Wolfgang Reinpold</b>
08:10 – 08:20 hrs	Robotic AWR: where are the limits?	<b>Yuri Novitsky</b>
08:20 – 08:30 hrs	Mesh explantation - when, why and how?	<b>David Chen</b>
08:30 – 08:40 hrs	Tissue expanders in AWR	<b>Kellee Slater</b>
08:40 – 08:50 hrs	Understanding mesh choices	<b>Sharad Sharma</b>
08:50 – 09:00 hrs	Making eTEPs easier to learn - a mirage?	<b>Jorge Daes</b>
09:00 – 09:10 hrs	Beauty and the surgical mind	<b>David Ross</b>
09:10 – 09:20 hrs	Lumbar hernias	<b>David Lourié</b>
09:20 – 09:30 hrs	Q & A	<b>All faculty</b>
<b>Planes and Plans (Keynotes)</b> <i>Creighton University School of Medicine</i> Chairs: <b>Conrad Ballecer, Filip Muysoms, Ramesh Punjani, Nadia Henriksen</b>		
09:30 – 09:55 hrs	Groin hernias - the unseen and unknown	<b>David Lourié</b>
09:55 – 10:20 hrs	Ventral anatomy as I see it	<b>Conrad Ballecer</b>
10:20 – 10:45 hrs	Anatomical understanding of the hiatal area and gastroesophageal reflux	<b>Yohann Renard</b>
<b>Welcome and felicitations for COEs</b> <i>AWR Surgeons Community</i>		
10:45 – 11:00 hrs	Moderators: <b>Arun Prasad, Rahul Mahadar, Sharad Sharma</b> Guest of honour: <b>Kalpesh Jani, Subhash Aggarwal, Vijay Borgaonkar</b>	

Friday 7<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
<b>Beyond Surgery</b> <i>AWR Surgeons Community</i> Chairs: <b>Kellee Slater, Todd Heniford, Parveen Bhatia, Muralidharan M</b>		
11:00 – 11:30 hrs	Risk taking in hernia surgery	<b>Ramana Balasubramaniam</b> <b>Viswanathan Anand</b>
11:30 - 12:00 hrs	The champion mindset	
<b>WWYD?</b> <i>SAGES</i> Chairs: <b>Ankit Patel, Abubaker Ali Ahmed, Hany Takla</b>		
12:00 – 13:00 hrs	Robotic total extraperitoneal (rTEP) repair of inguinal hernia Robotic parastomal hernia repair Robotic eTEP RS procedure for M3W2 incisional hernia with diastasis recti Robotic eTEP approach for sublay repair of recurrences after IPOM for ventral hernias Panel discussion on situations in robotic hernia surgery	<b>Udhay Shamrao Kumbhar</b> <b>Abhilash Kumar</b> <b>Suprashant Kularni</b> <b>Aakash Patel</b> Panelists: <b>All faculty</b> <b>Vivek Bindal</b>
13:00 – 14:00 hrs	<b>MaxTack Launch &amp; Medtronic Hernia Symposium</b>	
<b>The Candid Truth: Navigating Contemporary Controversial Topics in Hernia Surgery</b> <i>American Hernia Society</i> Chairs: <b>Flavio Malcher, Jorge Daes</b>		
14:00 – 14:12 hrs	IPOM - indications and rationale after 30 years	<b>Brian Jacob</b>
14:12 – 14:24 hrs	To abandon or not to abandon? management of large chronic inguinoscrotal hernias	<b>Flavio Malcher</b>

Friday 7<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
14:24 – 14:36 hrs	Posterior rectus sheath management during eTEP ventral repairs	Jorge Daes
14:36 – 14:48 hrs	Over a decade of TAR: how has my technique changed?	Yuri Novitsky
14:48 – 15:00 hrs	Hernia surgery education: effective strategies and lessons learned	Ileana Geogloman
15:00 – 15:12 hrs	Anatomical foundations for proper cephalad dissection in MIS ventral hernia repair	David Lourie
15:12 – 15:30 hrs	Q & A	All faculty

## Talking Technique

*EHS Paris 2025*

Chairs: **Yohann Renard, Nadia Henriksen, Nandakishore Dukkupati, Sandeep Murali**

15:30 – 15:40 hrs	eTEP TAR	Victor Radu
15:40 – 15:50 hrs	Open TIPP	Frederik Berrevoet
15:50 – 16:00 hrs	Peritoneal flap	Andrew de Beaux
16:00 – 16:10 hrs	The stoppa	Yohann Renard
16:10 – 16:20 hrs	Robotic diastasis repair	Federico Fiori
16:20 – 16:30 hrs	Parastomal hernia repair	Filip Muysoms
16:30 – 16:40 hrs	eMILOS	Wolfgang Reinpold
16:40 – 16:50 hrs	Triple neurectomy	Henry Hoffmann
16:50 – 17:00 hrs	Q & A	All faculty

Friday 7<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
<b>The AWRSC angle</b> <i>AWR Surgeons Community</i> Chairs - <b>Vijay Borgaonkar, Ritu Khare, Jaydeep Palep</b>		
17:00 – 17:10 hrs	Why do meshes fail?	Sharad Sharma
17:10 – 17:20 hrs	Minimal access AWR- TARM or e-TEP?	Rahul Mahadar
17:20 – 17:30 hrs	Why meshes get infected - from bench to bedside	M Kanagavel
17:30 – 17:40 hrs	Understanding fat distribution in extraperitoneal space - Groin	Rajesh Shrivatsava
17:40 – 17:50 hrs	Infected mesh - in or out?	Jignesh Gandhi
17:50 – 18:00 hrs	Q & A	All faculty
<b>Parliament of Disasters</b> <i>AWR Surgeons Community</i> Chairs: <b>Ramana Balasubramaniam, Yuri Novitsky, Heather Bougard, Jayalal JA</b>		
18:00 – 19:15 hrs	Just another Monday Management of complex contaminated wounds in AWR From little things, big things grow Every trick in my book The enemy of good is better TBA Misadventures after robo Tar Monstrous LOD - phasix Saves the day Horror in mediastinum A missed needle to mesh extraction - A domino effect: in a case of laparoscopic TAPP Managing urine and faeces in an open wound after para-ileal conduit hernia repair and abdominoplasty in male post-bariatric surgery patient	Yuri Novitsky Todd Heniford Rod Jacobs Kellee Slater Conrad Ballecer David Chen Arnab Majumder Premkumar Balachandran Vivek Bindal Nandhini K Thomas Mackay

Friday 7<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>Rectus Diastasis Beyond the Acronyms</b> <i>Swiss Association of Hernia Surgery</i> Chairs: <b>Jan Kukleta, Henry Hoffmann</b>		
08:00 – 08:03 hrs	Opening remarks	<b>Jan Kukleta &amp; Henry Hoffmann</b>
08:03 – 08:14 hrs	The minimally invasive subcutaneous approach to RD with small midline hernia onlay mesh (REPA, SCOLA, FESSA ELAR, resulting in ENDOR)	<b>Flavio Malcher</b>
08:14 – 08:22 hrs	The retromuscular approach to RD with a small midline hernia (e-MILOS, e-TEP, TESAR, TARM)	<b>Wolfgang Reinpold</b>
08:22 – 08:30 hrs	From extraperitoneal mesh to intraperitoneal (e-TEP over TAPP to LIRA, IPOM+)	<b>Juan Luque Bellido</b>
08:30 – 08:38 hrs	The different stitch technique for the anterior and posterior plication in RD robotic pearls of anatomy	<b>Ulrich Dietz</b>
08:38 – 08:46 hrs	Functional outcomes/improvements after diastasis repair	<b>Anders Olsson</b>
08:46 – 09:00 hrs	Q & A	<b>All faculty</b>
<b>Groin hernia updates</b> <i>EHS Porto 2026</i> Chairs: <b>Barbora East, Eva Barbosa, Andrew de Beaux, Sreejoy Patnaik</b>		
09:00 – 09:08 hrs	Managing giant inguinoscrotal hernias	<b>Ganesh Shenoy</b>
09:08 – 09:16 hrs	Redo groin surgery: decision making and technical tips	<b>David Chen</b>
09:16 – 09:24 hrs	Robotic mesh explantation	<b>Hugh McGregor</b>
09:24 – 09:32 hrs	The ABC of sports hernia	<b>Aali Sheen</b>
09:32 – 09:40 hrs	Critical view of MPO	<b>R Parthasarathi</b>
09:40 – 09:48 hrs	Teaching groin hernia surgery	<b>Eva Barbosa</b>
09:48 – 10:00 hrs	Q & A	<b>All faculty</b>

Friday 7<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>Lateral Hernias</b> <i>Washington University in Saint Louis</i> Chairs: <b>Arnab Majumder, Arunima Verma, Sudhir Kalhan, Somyaa Khuller</b>		
10:00 – 10:08 hrs	What is special about lateral hernias?	<b>Mario Rui Gonçalves</b>
10:08 – 10:18 hrs	Algorithmic approach to LH	<b>Yuri Novitsky</b>
10:18 – 10:26 hrs	Post liver transplant hernias - special considerations	<b>Arnab Majumder</b>
10:26 – 10:34 hrs	eTEP access approaches	<b>Jorge Daes</b>
10:34 – 10:42 hrs	TAPP: when and how?	<b>Arun Prasad</b>
10:42 – 10:50 hrs	Open lateral approach	<b>Vikas Singhal</b>
10:50 – 11:00 hrs	Q & A	<b>All faculty</b>

## Keynote Relay from Hall A

11:00 - 12:00 hrs

## HERnia - Panel Discussion

*AWR Surgeons Community*

Chairs: **Eva Barbosa, Kellee Slater, Jyotsna Kulkarni, Shanthi B**

12:00 – 13:00 hrs	Case discussions followed by open house Moderators - <b>Vishakha Kalikar</b> and <b>Somyaa Khuller</b>	Panelists: <b>Eva Barbosa</b> <b>Kellee Slater</b> <b>Annabelle De Troyer</b> <b>Ritu Khare</b> <b>Vani Vijay</b> <b>Barbora East</b>
-------------------	---	---

Friday 7<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
13:00 – 14:00 hrs	Lunch	
<b>Highway to Disaster</b> <i>European Complication Session</i> Chairs: <b>Andrew de Beaux, Barbora East, Ileana Geogloman, Ramamoorthy A</b>		
14:00 – 15:00 hrs	Panelists: <b>Ulrich Dietz, Mette Willaume, Oliver M Fisher, Sai Bharat</b> Opening talk - The cost of a mistake and how to prevent a complication Case discussions / Panel discussion - case 1-4 Closing talk - Surgeon as a second victim	<b>Andrew de Beaux</b>  <b>Barbora East</b>
<b>IHC session</b> Chairs: <b>Brian Jacob, David Chen, Vishakha Kalikar</b>		
15:00 – 15:10 hrs	Diastasis and umbilical hernia: treatment options and decision making	<b>Henry Hoffmann</b>
15:10 – 15:20 hrs	Biomechanics of repairs and recurrences	<b>Barbora East</b>
15:20 – 15:30 hrs	Anterior cutaneous nerve entrapment	<b>Brian Jacob</b>
15:30 – 15:40 hrs	rTAPP inguinal: is it becoming okay to close the defects now that we can?	<b>David Chen</b>
15:40 – 15:50 hrs	Update on SCOLA repair techniques: what have we learned?	<b>Flavio Malcher</b>
15:50 – 16:00 hrs	How to perform a proper robotic TAPP flank hernia	<b>Conrad Ballecer</b>
16:00 – 16:10 hrs	eTEP ventral and abdominal wall bulging	<b>Jorge Daes</b>
16:10 – 16:30 hrs	Q & A	<b>All faculty</b>

Friday 7<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>Making research count in practice</b> <i>Danish Hernia Society</i> Chairs: <b>Anders Olsson, Franz Mayer, Frederik Helgstrand, PB Sudharshan</b>		
16:30 – 16:42 hrs	Danish hernia database - why, when and how?	Lars Nannestad Jørgensen
16:42 – 16:54 hrs	Difficult questions - smart answers	Mette Willaume
16:54 – 17:06 hrs	A lot of research - but have we improved nationwide outcomes for incisional hernias during last decades?	Frederik Helgstrand
17:06 – 17:18 hrs	Do registries agree with guidelines?	Nadia A Henriksen
17:18 – 17:30 hrs	Panel discussion	All faculty
<b>A long night!</b> Association of Minimal Access Surgeons of India (AMASI) Chairs: <b>Kalpesh Jani, Suresh Chandra Hari, Sandeep Sabnis, Jyotsna Kulkarni</b>		
17:30 – 17:35 hrs	Burst PDB balloon ventral eTEP	Tharun Ganapathy
17:35 – 17:40 hrs	Both veress and optiview trocar entry tip broken	Rajesh Shrivatsava
17:40 – 17:45 hrs	An unfortunate situation - eye opener for novice hernia surgeons	RR Mahin Nallasivam
17:45 – 17:50 hrs	Double trouble	Pari Muthukumar
17:50 – 17:55 hrs	Mesh infection a surgeon's nightmare	Arunima Verma
17:55 – 18:00 hrs	Immediate recurrence with obstruction after TAPP	Shivanshu Mishra
18:00 – 18:05 hrs	Post TARM - PRS rupture with obstruction	Arunkumar K
18:05 – 18:10 hrs	Recurrent ventral hernia with chronic PRS rupture	Manish Mehta
18:10 – 18:15 hrs	Case of open retro rectus dehiscence	Lakshmikanth T

Friday 7<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
18:15 – 18:20 hrs	Caecal volvulus after E-Top hernia repair	<b>P Senthilnathan</b>
18:20 – 18:25 hrs	Blind spot	<b>Ahmad Jaber</b>
18:25 – 18:30 hrs	Open house discussion	Moderator - <b>P Senthilnathan</b>
19:15 hrs - 20:00 hrs	<b>Annual general body meeting</b>	

Friday 7<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Suture repairs</b> <i>Austrian Hernia Society</i> Chairs: <b>René H. Fortelny, Franz Mayer, Mohamed Ismail, Bhanumati Giridharan</b>		
08:00 – 08:08 hrs	Shouldice	Hari Kumar Ondiveeran
08:08 – 08:16 hrs	Desarda	Bernd Stechemesser
08:16 – 08:24 hrs	Short stitch technique	René H. Fortelny
08:24 – 08:32 hrs	Diastasis repair	Jan Kukleta
08:32 – 08:40 hrs	Reinforced tension line	Nadia Henriksen
08:40 – 08:48 hrs	Iliopubic tract repair	Ulrich Dietz
08:48 – 09:00 hrs	Q & A	All faculty
<b>Prehabilitation in AWR</b> <i>Austrian Hernia Society</i> Chairs: <b>Franz Mayer, René H. Fortelny, Elbert Khiangte, Vani Vijay</b>		
09:00 – 09:10 hrs	Prehabilitation: what are we talking about?	Henry Hoffmann
09:10 – 09:20 hrs	Monitoring of modifiable risk-factors in incisional hernia surgery over 12 years: what can we learn?	Franz Mayer
09:20 – 09:30 hrs	Frailty in AWR	Ramana Balasubramaniam
09:30 – 09:40 hrs	Which type of incisional hernia might end up in a disaster during prehabilitation?	Rod Jacobs
09:40 – 09:50 hrs	Prehabilitation in AWR-surgery: how can we convince the sceptics and naysayers?	Todd Heniford
09:50 – 10:00 hrs	Q & A	All faculty

Friday 7<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Obesity in Hernias</b> <i>Obesity Surgery Society of India</i> Chairs: <b>Kellee Slater, Praveen Raj, Keyur Yagnik, Mahendra Narwaria</b>		
10:00 – 10:08 hrs	Weight Loss before hernia surgery	<b>Oliver M Fisher</b>
10:08 – 10:16 hrs	Algorithmic approach to hernia with obesity	<b>Praveen Raj</b>
10:16 – 10:24 hrs	Obesity and hiatus hernia	<b>Shashank Shah</b>
10:24 – 10:32 hrs	Technical considerations in concomitant bariatric surgery and AWR	<b>Saravana Kumar</b>
10:32 – 10:40 hrs	GLP-1 analogues in AWR practice	<b>David Ross</b>
10:40 – 10:48 hrs	How I handle the massive patient with a hernia	<b>Kellee Slater</b>
10:48 – 11:00 hrs	Q & A	<b>All faculty</b>
<b>Just one thing</b> <i>AWR Surgeons Community</i> Chairs: <b>Giovanni Scudo, Zameer Pasha, Mustaq Qureshi, Senthil M</b>		
11:00 – 11:06 hrs	Robotic single flap method for bilateral inguinal hernia repair rTAPP	<b>Ashish Vashistha</b>
11:06 – 11:12 hrs	PeTEP for inguinoscrotal hernias	<b>Bharath Cumar</b>
11:12 – 11:18 hrs	TAIP-R an innovative alternate for ventral hernia	<b>Nallankilli VP</b>
11:18 – 11:24 hrs	Laparoscopic management of sub xiphoid hernia	<b>Pinak Dasgupta</b>
11:24 – 11:30 hrs	2- port E-TEP mesh repair - a novel & feasible technique for inguinal hernia	<b>JKA Jameel</b>
11:30 – 11:36 hrs	E-TEP RS hybrid for recurrent hernia	<b>Kalaivani V</b>
11:36 – 11:42 hrs	Complex hernia repair with hugo RAS system	<b>Asish Sadana</b>
11:42 – 11:48 hrs	Umbilical hernia patch placement and repositioning	<b>Merezban Katrak</b>
11:48 – 11:54 hrs	Single port cross-over technique	<b>Priyanka Shinde</b>
11.54 - 12.00 hrs	Video of open modified rives stoppa for concurrent incisional and parastomal hernia	<b>Eliad Karin</b>

Friday 7<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>AWR Oscars</b> <i>Indian Association of Gastrointestinal Endo Surgeons (IAGES)</i> Chairs: <b>Meenakshi Sharma, T Sivakumar, Subhash Aggarwal, Satish Midha</b>		
12:00 - 12:05 hrs	Hexagon of Hernias: eTEP a one stop solution	<b>Raju P</b>
12:05 - 12:10 hrs	Lap TAPP plus for large lumbar incisional hernia	<b>Sumanta Dey</b>
12:10 - 12:15 hrs	Preoperative progressive pneumoperitoneum followed by anterior component separation with peritoneal flap hernioplasty for recurrent complex incisional hernia	<b>Ashesh Kumar Jha</b>
12:15 - 12:20 hrs	Paringuinal hernia - a atypical variant of inguinal hernia	<b>Rashmiranjan Sahoo</b>
12:20 - 12:25 hrs	Use of composite mesh in laparostomy - a novel technique	<b>Chandru Ravindrakumar</b>
12:25 - 12:30 hrs	The overlooked danger: obturator hernia in female patients from emergency to recovery	<b>Punitha ANR</b>
12:30 - 12:35 hrs	Preperitoneal repair of primary ventral with divarication	<b>Sanjay Sonar</b>
12:35 - 12:40 hrs	Post IPOM mesh infection - surgeon's nightmare- management at a single center	<b>Manchala Akilesh</b>
12:40 - 12:45 hrs	Role of botox in abdominal wall reconstruction	<b>Vishanth G</b>
12:45 - 12:50 hrs	Huge inguinal hernia - pitfalls and treatment	<b>Roi Abramov</b>
12:50 - 12:55 hrs	Reconstruction of the myopectineal orifice following radical resection of groin sarcomas	<b>Paul Yohann George</b>
12:55 - 13:00 hrs	Fascia lata transabdominal pre-peritoneal repair in incarcerated inguinal hernia (FL TAPP) - a case report	<b>Sriya Srujana Paladugu</b>
13:00 - 13:05 hrs	Use of pedicled vastus lateralis muscle flap to repair large full thickness abdominal wall defect	<b>Nikhil Soni</b>
13:05 - 13:10 hrs	When a Hernia Repair Becomes a Tumor	<b>T Sivakumar</b>
13:10 - 13:15 hrs	Concomitant Bariatric Surgery with Ventral hernia repair	<b>Vagisha Shrivastava</b>
13:15 - 13.20 Hrs	Mesh migration after IPOM	<b>Subhash Aggarwal</b>

Friday 7<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Mélange</b> <i>AWR Surgeons Community</i> Chairs: <b>Debasish Patnaik, Vikram Lotwala, Tirumala Prasad, Kalaivani V</b>		
13:30 - 13:36 hrs	Laparoscopic management of huge direct sac in inguinoscrotal hernia	<b>Suprashant Kulkarni</b>
13:36 - 13:42 hrs	Robotic TAPP for inguinal hernia, my experience	<b>Balashanmugam TS</b>
13:42 - 13:48 hrs	Bail out options in LOD hernia	<b>Pradeep Sharma</b>
13:48 - 13:54 hrs	How I fix my mesh in open inguinal hernias?	<b>RM Khattar</b>
13:54 - 14:00 hrs	Acute intrathoracic gastric volvulus after lap. fundoplication: case report and review of literature	<b>Sanjiv Haribhakti</b>
<b>CT for AWR - The Surgical GPS</b> <i>AWR Surgeons Community</i> Chairs: <b>David Lourié, Laleh Lourié, Abhimanyu Kapoor, Jayanth Leo</b>		
14:00 – 14:06 hrs	Mapping adhesions - the power of CT in guiding hernia repair	<b>Abhimanyu Kapoor</b>
14:06 – 14:14 hrs	Past Implants, present challenges	<b>Nir Messer</b>
14:14 – 14:20 hrs	Evaluation of radiologists' accuracy and interrater reliability when interpreting CT scans after ventral hernia repair	<b>Fahim Kanani</b>
14:20 – 14:28 hrs	CT in LOD	<b>Eham Arora</b>
14:28 – 14:34 hrs	Dynamic CT for hernia assessment - beyond static imaging	<b>Ankit Mishra</b>
14:34 – 14:40 hrs	Assessing sarcopenia: how, why and what next?	<b>Vinayak Rengan</b>
14:40 – 14:48 hrs	PseudoTAR	<b>Conrad Ballecer</b>
14:48 – 15:00 hrs	Q & A	<b>All faculty</b>

Friday 7<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Advancing groin hernia thoughts</b> <i>Israeli Society of Abdominal Wall Surgery</i> Chairs: <b>Youri Mnouskin, Amir Szold, Ramesh Dumbre, Vijay Balakumar</b>		
15:00 – 15:13 hrs	Perfection in groin hernia surgery	<b>Danny Rosin</b>
15:13 – 15:21 hrs	TEP+: practice and publication	<b>Sujith Wijerathne</b>
15:21 – 15:29 hrs	Robotic re-TAPP	<b>Shmuel Avital</b>
15:29 – 15:37 hrs	Troubleshooting TEP: what to do when things don't go as planned	<b>Amir Szold</b>
15:37 – 15:50 hrs	eTEP inguinal made easy? you got it right	<b>Youri Mnouskin</b>
15:50 – 16:03 hrs	Huge inguinal hernia - pitfalls and treatment	<b>Abusalih Adel</b>
16:03 – 16:11 hrs	TEP herniotomy in young males	<b>Pawanindra Lal</b>
16:11 – 16:30 hrs	Q & A	<b>All faculty</b>

### Legacy of Prof Udwadia (Young surgeons competitive award session)

*An IAGES and AWRSC Tribute*

Chair: **Sanjay Sonar, Ramesh Punjani, Sushama Surapaneni**

16:30 - 16:35 hrs	Laparoscopic repositioning of migrated fundal wrap	<b>Ausaf Ahmad</b>
16:35 - 16:40 hr	Minimally invasive management of a subcostal incisional hernia	<b>Gautham Balakrishna</b>
16:40 - 16:45 hrs	Is ventral patch repair an effective treatment for small ventral hernias	<b>Keerthi Visagan</b>
16:45 - 16:50 hrs	Hernia final boss: a large ventral hernia with 64% LOD	<b>Ketan Gupta</b>
16:50 - 16:55 hrs	Fasciotens in AWR	<b>Imeshi Indigahawela</b>
16:55 - 17:00 hrs	Small incisions, big results - laparoscopic repair of diastasis recti using the 'venetian blinds' technique of plication with prosthetic reinforcement: a retrospective study of 500 patients and 5-year follow-up	<b>Nithin Bangaradka</b>

Friday 7<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
17:00 - 17:05 hrs	Use of preoperative combination of progressive pneumoperitoneum and botulinum toxin a in large ventral hernia with loss of domain: a series of 30 patients	Iresh Bansal
17:05 - 17:10 hrs	To tear or TAR?	Abirami J Raghunath
17:10 - 17:15 hrs	Circumferential plication of the direct hernia sac: A refined approach in TEP: our centre experience	Prajyot Pardeshi
17:15 - 17:20 hrs	A comparative study between three-dimensional anatomical mesh versus polypropylene mesh in laparoscopic transabdominal preperitoneal (TAPP) inguinal hernia repair	Kumaresh Pandian
17:20 - 17:25 hrs	Laparoscopic round ligament sparing herniotomy	Mohsinur Rohman
17:25 - 17:30 hrs	From zero to hundred: Reflections from a surgical unit's experience	Arunmozhi Vijay
17:30 - 17:35 hrs	Emergency laparoscopic repair of an obstructed large post-traumatic diaphragmatic hernia	Prasanna Jeevanandham
17:35 - 17:40 hrs	Comparative study of Lichtenstein mesh repair vs non-mesh desarda technique	Shezan Fouzdar
17:40 - 17:45 hrs	Unique mechanism of recurrence after open B/L TAR	Mohammed Albonajem
17:45 - 17:50 hrs	Laparoscopic eTEP RS TAR for acquired abdominal trans diaphragmatic intercostal hernia with peritoneal sac harvestment with large polypropylene mesh repair	Nitin Baste

## Panel discussion

*AWR Surgeons Community*

18:00 - 18:30 hrs	Role of Surgical societies in MIS hernia skill training Moderator: <b>M Kanagavel</b>	Panelists: <b>Kalpesh Jani</b> <b>Subash Agarwal</b> <b>Abhay Dalvi</b> <b>K Balaji Singh</b> <b>Satish Midha</b>
-------------------	--	--

## Baxter Panel Discussion

18:30 - 19:00 hrs	Role of seprafilm in AWR surgery	<b>Pravin Hanumant Shinde</b>
-------------------	----------------------------------	-------------------------------

Friday 7<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
<b>Inguinal 1</b> Chairs: <b>Sujith Wijerathne, Anirudh Rajkumar, Saurabh Misra, Brij Banga</b>		
09:00 - 09:05 hrs	Limited lap IH repair of TEP recurrence	<b>Danny Rosin</b>
09:05 - 09:10 hrs	A novel modified hybrid TAPP technique for treating irreducible inguinoscrotal hernias	<b>Mohamed Rifath</b>
09:10 - 09:15 hrs	A comparative study of quality of life (QOL) and testicular function after laparoscopic total extraperitoneal (TEP) and transabdominal preperitoneal (TAPP) repair of inguinal hernia	<b>Satendra Kumar</b>
09:15 - 09:20 hrs	The silent partner; contralateral occult hernia and its implications in TEP herniorrhaphy	<b>Sumit Sharma</b>
09:20 - 09:25 hrs	Our experience in laparoscopic ETEP technique for irreducible inguinal hernias	<b>Anusuya C</b>
09:25 - 09:30 hrs	Laparoscopic vs open inguinal hernioplasty in an emergency setting - a comparative study	<b>Tenneti Venkata Praneeth</b>
09:30 - 09:35 hrs	A comparative study between optical trocar vs open technique for port site entry in totally extra peritoneal repair	<b>Gouni Anvitha Reddy</b>
09:35 - 09:40 hrs	Drains in lap TEP for inguinoscrotal hernias	<b>Rishabh Agarwalla</b>

## Inguinal 2

Chairs: **Aali Sheen, Rajesh Bhojwani, Sachin Jamma, Sivalingam Perumal**

10:00 - 10:05 hrs	Randomised controlled trial in laparoscopic inguinal hernia repair: suture vs tacker	<b>Cecil T Thomas</b>
10:05 - 10:10 hrs	Repair of lumbar incisional hernia using polypropylene mesh strips	<b>Anil Deshpande</b>
10:10 - 10:15 hrs	Indirect inguinal hernia in a female: a rare presentation	<b>Sarthak Satpathy</b>
10:15 - 10:20 hrs	eTEP in scrotal abdomen	<b>Tharun Ganapathy</b>
10:20 - 10:25 hrs	Posterior rectus sheath disruption	<b>Sourav Manoram Sahu</b>

Friday 7<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
10:25 - 10:30 hrs	Laparoscopic transabdominal preperitoneal repair with combined plug and flat mesh in a 50-year-old male with left inguinoscrotal hernia	Asfar Ahamed Nawabjan
10:30 - 10:35 hrs	Laparoscopic approach to ureteroinguinal hernia	Sriya Srujana Paladugu
10:35 - 10:40 hrs	Comparison of post-operative pain between transabdominal pre-peritoneal mesh repair and open Lichtenstein techniques for uncomplicated inguinal hernia repair: a randomised controlled study	Sukhith T R
10:40 - 10:45 hrs	Comparison of extended total extraperitoneal (E-TEP) repair and transabdominal pre-peritoneal (TAPP) mesh repair in bilateral inguinal hernia repair	Veda Munnangi

### Inguinal 3

Chairs: **Anubhav Vindal, Anil Deshpande, Sandip Ray, Joyner Abraham**

11:00 - 11:05 hrs	Laparoscopic assisted transversus abdominis block as an effective analgesic in transabdominal pre-peritoneal hernia mesh repair	Asfar Ahamed Nawabjan
11:05 - 11:10 hrs	Bilateral spermatic cord lipoma misdiagnosed as inguinoscrotal hernia	Feras Alsannaa
11:10 - 11:15 hrs	Right-sided incarcerated femoral hernia in an octogenarian: a case report	Anup Kumar Pandit
11:15 - 11:20 hrs	The vascular confluence of concern in groin hernias	Nandhini K
11:20 - 11:25 hrs	Mastering preperitoneal space in groin hernias in women and the significance of round ligament	Nandhini K
11:25 - 11:30 hrs	Hydrocele of canal of nuck: a minimally invasive approach	G. Gautham Vignesh
11:30 - 11:35 hrs	Giant inguinal hernia: a surgical challenge	Immadi Sai Kumar
11:35 - 11:40 hrs	Hematocele of spermatic cord mimicking obstructed inguinal hernia!	Bhagyashree
11:40 - 11:45 hrs	Swelling in disguise!	Bhagyashree
11:45 - 11:50 hrs	Total extra-peritoneal hernioplasty for an incarcerated femoral hernia	Angelo Christopher

Friday 7<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
<b>Inguinal 4</b> Chairs: <b>Pravish Rai Sookha, Brijendra Singh, Deepu Thiyagarajan</b>		
14:00 - 14:05 hrs	TEP in irreducible inguinal hernia	<b>Biren Prasad Padhy</b>
14:05 - 14:10 hrs	The art of tackling 'pseudosacs' and its outcomes	<b>Tharun Ganapathy</b>
14:10 - 14:15 hrs	Laparoscopic eTEP in giant type 2 inguinoscrotal hernia with pseudosac excision	<b>Nitin Baste</b>
14:15 - 14:20 hrs	Obstructed femoral hernia presenting with acute intestinal obstruction	<b>Chinmai Meka</b>
14:20 - 14:25 hrs	eTEP for inguinal hernias: our experience in a tertiary care teaching hospital	<b>Divya Vasireddy</b>
14:25 - 14:30 hrs	Hernia uterine inguinale: a rare surgical occurrence	<b>Saicharan Reddy</b>
14:30 - 14:35 hrs	Laparoscopic management of strangulated femoral hernia	<b>Suprashant Kulkarni</b>
14:35 - 14:40 hrs	Laparoscopic management of large indirect sac in left inguinoscrotal hernia	<b>Suprashant Kulkarni</b>
14:40 - 14:45 hrs	Single centre data analysis on the trends of inguinal hernia repair	<b>Shree Krishnamoorthy</b>
<b>Innovation 1</b> Chairs: <b>Harmandeep Singh Jabbal, Vikram Lotwala, Satish Pattanshetti, Chittaranjan Das</b>		
15:00 - 15:05 hrs	Fluorescence guided laparoscopic posterior component separation technique	<b>Janak Malu</b>
15:05 - 15:10 hrs	The effect of laparoscopic defect closure (TEP and Tapp Plus) in direct inguinal hernia	<b>Abirami J Raghunath</b>
15:10 - 15:15 hrs	Laparoscopic preperitoneal repair of lateral hernia – technique and outcomes	<b>Raju P</b>
15:15 - 15:20 hrs	A comparison between extended-total extraperitoneal repair and transabdominal retromuscular repair for midline abdominal hernia	<b>Haridev S</b>
15:20 - 15:25 hrs	Innovative techniques in minimising recurrence & optimising outputs: Endoscopic anterior component separation [ACS] as an adjunct to lap IPOM plus in complex ventral hernia	<b>Nithin Bangaradka</b>

Friday 7<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
15:25 - 15:30 hrs	Creation of preperitoneal plane with saline and CO2 in ventral TAPP	Harshad Mahatme
15:30 - 15:35 hrs	Precostal top down eTEP approach: technique and outcomes from GEM hospital	Prajyot Pardeshi
15:35 - 15:40 hrs	Modified MILOS technique for umbilical and paraumbilical hernias – our experience	Kirthika Arunachalam
15:40 - 15:45 hrs	The subcutaneous onlay laparoscopic approach (SCOLA) for umbilical and paraumbilical hernia repair: a step forward in minimally invasive surgery	Rajahamsa

## Mesh Matters 1

Chairs: **Uday Kumbhar, Hemant Patil, Advait Jathar, Prasenjit Bhattacharya**

16:00 - 16:05 hrs	Fixation vs non-fixation of mesh in laparoscopic TEPP repair of inguinal hernia – a retrospective study	Shree Krishnamoorthy
16:05 - 16:10 hrs	Innovative double mesh technique in laparoscopic pre-peritoneal repair of complex ventral hernia	Cibhi S. P
16:10 - 16:15 hrs	Minimally invasive approach to mesh infection	G. Gautham Vignesh
16:15 - 16:20 hrs	Difficulty meter in 'laparoscopic mesh explant' post laparoscopic hernia repairs – case set	Tharun Ganapathy
16:20 - 16:25 hrs	Self-gripping mesh vs lightweight polypropylene mesh in ventral hernia repairs – observational study	Sriya Srujana Paladugu
16:25 - 16:30 hrs	Short-term outcomes of fibrin glue versus absorbable tackers for mesh fixation in laparoscopic TAPP inguinal hernia repair	Sujay Jeffrey Richard J
16:30 - 16:35 hrs	Lightweight vs heavyweight mesh: A prospective analysis of safety and tolerability in primary inguinal hernia repair	Ankireddypalle Shanmukha Shashank Reddy
16:35 - 16:40 hrs	Hernia mesh explantations – lessons learned from an Indian experience	Reena K Mehta
16:40 - 16:45 hrs	Mesh related complications following laparoscopic TAPP for groin hernias – how real is the risk?	Reena K Mehta

Friday 7<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
<b>Mesh Matters 2</b> Chairs: <b>Sumeet Toshniwal, Jinesh Doshi, Sumanta Dey, Perungo T</b>		
17:00 - 17:05 hrs	Rebuilding from the inside out - correcting the damage of mesh infection, one stitch at a time	<b>Sravya Inampudi</b>
17:05 - 17:10 hrs	Complex abdominal wall reconstruction - the use of biosynthetic mesh	<b>Adel Abusalih</b>
17:10 - 17:15 hrs	A bezoar case - this time it's a mesh	<b>Eshwar</b>
17:15 - 17:20 hrs	Laparoscopic management of mesh migration into urinary bladder following laparoscopic totally extra-peritoneal inguinal hernia repair	<b>Abirami J Raghunath</b>
17:20 - 17:25 hrs	Mesh explantation	<b>Ashish Vashistha</b>
17:25 - 17:30 hrs	Five years of mesh explantation: insights, challenges, and outcomes	<b>Ashwini Krishnamoorthy</b>
17:30 - 17:35 hrs	Clinical insights into tackling mesh rupture in recurrent incisional hernia repairs: a case study	<b>Manish Kumar Agrawal</b>
17:35 - 17:40 hrs	Innovative use of biological mesh and tensor fascia lata flap in abdominal wall reconstruction following traumatic avulsion	<b>Rishi Ranjan Shrivastava</b>
17:40 - 17:45 hrs	Comparing early post-operative outcome in polyester vs. polypropylene mesh in open ventral hernioplasty	<b>Krishna Athreya Thutupalli</b>
17:45 - 17:50 hrs	Extended total extraperitoneal mesh repair in a case of divarication of recti with concomitant umbilical hernia – a surgical video demonstration	<b>Neel Wat</b>
17:50 - 17:55 hrs	Complex surgical management of recurrent incisional hernias with mesh migration, bowel obstruction, and sepsis: a case report	<b>Ramkaran Chaudhary</b>

Friday 7<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
<b>Robotics 1</b> Chairs: <b>Hany Takla, Vishal Soni, Pari Muthukumar</b>		
09:00 - 09:05 hrs	Robotic TAPP for recurrent ventral hernia after IPOM	<b>Naveen Sharma</b>
09:05 - 09:10 hrs	Robotic trans-abdominal rives-stoppa repair with unilateral left TAR for large divarication of recti with umbilical hernia - our initial experience	<b>S. Jegadesh Chandra Bose</b>
09:10 - 09:15 hrs	Robotic 3 port eTEP repair in da vinci si system for ventral hernia	<b>S. Jegadesh Chandra Bose</b>
09:15 - 09:20 hrs	Fascial anatomy of the pre-peritoneal space	<b>Paul Yohan George</b>
09:20 - 09:25 hrs	rTAPP vs rIPOM+ for repair of umbilical hernia with divarication of recti	<b>Ashish Vashistha</b>
09:25 - 09:30 hrs	Robotic IPOM - Stand-by option for ventral TAPP in lateral abdominal wall hernias	<b>Vishak D</b>
09:30 - 09:35 hrs	Robotic inguinal hernia surgery [R-TAPP] for inguinal experience in a tertiary care hospital - a case series	<b>P. Chandralekha</b>
<b>Upcoming Techniques 1</b> Chairs: <b>Titus D K, Rajesh Mahida, Ajaiyakumar SK</b>		
10:00 - 10:05 hrs	The novel of eMilos with stapler-assisted technique	<b>Zahalka Alaa</b>
10:05 - 10:10 hrs	Modified PAS technique for simplified inguinoscrotal hernia repair	<b>Nishit Patel</b>
10:10 - 10:15 hrs	A short term prospective comparative analysis of TAPP vs TARM for small ventral hernia	<b>Bharath B</b>
10:15 - 10:20 hrs	Laparoscopic SCOLA repair	<b>Praveenraju Bala</b>
10:20 - 10:25 hrs	Transabdominal retromuscular repair	<b>Ajay Pai</b>
10:25 - 10:30 hrs	Comparison of disposable balloon trocar versus conventional trocar entry in subcutaneous onlay laparoscopic approach (SCOLA) repair for ventral hernia	<b>M. Balaram</b>

Friday 7<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
10:35 - 10:40 hrs	A comparative study between laparoscopic transabdominal retromuscular repair (TARM) versus laparoscopic transabdominal partial extraperitoneal (TAPE) repair for infraumbilical hernia	K Arun Kumar
10:40 - 10:45 hrs	A novel modification to eMILOS - innovation	Sinduja S

## Upcoming Techniques 2

Chairs: **Roshan Ariyaratnam, Pranay Gaikwad, Saravanan Nanjappan**

11:00 - 11:05 hrs	TAPP-PLUS: a versatile solution for ventral hernias in diverse locations	<b>Sujeetha K</b>
11:05 - 11:10 hrs	Free peritoneal graft for patching peritoneal defects in TAPP for ventral hernia	<b>Naveen Sharma</b>
11:10 - 11:15 hrs	Transabdominal preperitoneal rectus aponeuroplasty (TAPP-RA) for umbilical hernia	<b>Manish Mehta</b>
11:15 - 11:20 hrs	'Tips & Maneuvers' for a smooth sail in SCOLA operation	<b>Tharun Ganapathy Chitrabalam</b>
11:20 - 11:25 hrs	Refining hernia surgery: exploring the efficacy of TARM in ventral hernia repair	<b>Sujeetha K</b>
11:25 - 11:30 hrs	Subcutaneous onlay endoscopic approach (SCOLA) mesh repair for midline ventral hernias with diastasis recti in postpartum females – a prospective cohort study	<b>Lokesh Reddy</b>
11:30 - 11:35 hrs	Study to assess the efficacy of procedures performed for ventral hernia repair with the cost-efficient combined transabdominal retro-muscular with onlay mesh hernioplasty (CTARM+OM) technique	<b>Bhartiya SK</b>
11:35 - 11:40 hrs	Comparative study between subcutaneous onlay laparoscopic approach (SCOM/SCOLA) and laparoscopic intraperitoneal onlay repair plus of umbilical and para umbilical hernia	<b>Kaushick Kumar A</b>
11:40 - 11:45 hrs	A novel hybrid laparoscopic eTEP technique for ventral hernia repair - innovation	<b>P. Chandralekha</b>

Friday 7<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
<b>Ventral 1</b> Chairs: <b>Damodaran Veerasamy, SK Christopher, Saravanan J</b>		
14:00 - 14:05 hrs	Comparative study between optical trocar telescopic dissection and balloon trocar insufflation technique in creation of preperitoneal space for laparoscopic eTEP inguinal hernia repairs - RCT	<b>Tharun Ganapathy</b>
14:05 - 14:10 hrs	Transfascial sutures vs tackers in the repair of umbilical hernia - a comparative study	<b>Abirami J Raghunath</b>
14:10 - 14:15 hrs	Hybrid hernia surgery: a case series	<b>Guru Prasad Painuly</b>
14:15 - 14:20 hrs	Anatomical considerations in ventral hernia	<b>Anup Kumar Pandit</b>
14:20 - 14:25 hrs	Study of three port technique for extended view total extraperitoneal Rives-Stoppa repair in ventral hernia, a short term analysis	<b>Narendra Vijay Lohokare</b>
14:25 - 14:30 hrs	P-TEP: Dr. Palanivelu's extraperitoneal approach for management of inguinal hernias: 28 years experience of GEM Hospital	<b>Prajyot Pardeshi</b>
14:30 - 14:35 hrs	A single-center study on the laparoendoscopic approach for abdominal wall hernia management	<b>Abirami Anbarasu</b>
14:35 - 14:40 hrs	Alternative approach to open ventral hernia	<b>Sahith Chandra Nimmagadda</b>
14:40 - 14:45 hrs	Outcomes following management of giant abdominal wall hernias with loss of domain (LoD) using Botox and progressive pneumoperitoneum (PPP)	<b>Nangadda Sai Ram</b>

## Ventral 2

Chairs: **Charu Paranjape, Piyush Patwa, Srivatsan Gurumurthy**

15:00 - 15:05 hrs	Pre-peritoneal anatomy revisited in the era of laparoscopic eTEP	<b>Ajay Ramesh</b>
15:05 - 15:10 hrs	Transabdominal preperitoneal repair for ventral hernias: a case series	<b>Kritin Kondeti</b>
15:10 - 15:15 hrs	Laparoscopic transfascial detensioning sutures	<b>Emmanuel L</b>

Friday 7<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
15:15 - 15:20 hrs	A novel approach for better fascial closure - botulinum toxin in hernia repair	Subash SM
15:20 - 15:25 hrs	Comparison of enhanced view total extraperitoneal technique with laparoscopic technique in inguinal and umbilical hernia repair	Immadi Sai Kumar
15:25 - 15:30 hrs	Transversus abdominis muscle release: a novel approach for abdominal wall reconstruction	R. Sai Prashanth
15:30 - 15:35 hrs	The hernia form: Enhancing preoperative assessment and surgical planning for hernia management	Satyra Kumar Barla BSV
15:35 - 15:40 hrs	eTEP Rives-Stoppa repair for ventral hernias - our experience in a tertiary care teaching hospital	Pranay B R
15:40 - 15:45 hrs	Comparative study of open onlay vs sublay repair for abdominal wall hernia	Haresharan S

### Ventral 3

Chairs: **Mario Rui Gonçaves, Vijayakumar P, Selvarajkumar Ayyadurai**

16:00 - 16:05 hrs	Laparoscopic E-TEP interposition mesh hernioplasty for lateral hernia (L3W2)	Busani Varun
16:05 - 16:10 hrs	A comparative study between retrorectus and onlay mesh repair outcomes for ventral hernia in a tertiary care centre	Ketan Gupta
16:10 - 16:15 hrs	Approach to vesical femoral hernia	S R Shyam Sundar
16:15 - 16:20 hrs	Laparoscopic ventral and inguinal eTEP feasible option for dual hernias	Vishak D
16:20 - 16:25 hrs	Laparoscopic E-TEP mesh hernioplasty with sac preservation for multiple ventral hernias	Busani Varun
16:25 - 16:30 hrs	Laparoscopic management of obstructed supravesical hernia	Vikas C Kawarat
16:30 - 16:35 hrs	3-port laparoscopic eTEP RS unilateral TAR in recurrent umbilical hernia M3/W1 in a previously open onlay mesh repair	Nitin Baste
16:35 - 16:40 hrs	MIAL artery - a unnamed persistent perforator branch of inferior epigastric artery in retro rectus space	P.B. Sudarshan
16:40 - 16:45 hrs	Diving technique in telescopic dissection of preperitoneal space	P.B. Sudarshan
16:45 - 16:50 hrs	eTEP RS 'low' carolinas - infraumbilical rives stoppa (RS) to pre-peritoneal crossover for primary epigastric & umbilical hernia (M2-3 W1 R0)	Harmandeep Singh Jabbal

Friday 7<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
<b>Ventral 4</b> Chairs: <b>Pandiyarajan, Sadashiv Chaudhuri, Vaibhav Mudhale</b>		
17:00 - 17:05 hrs	Effect of prehabilitation on outcomes in complex hernia patients	<b>Sourav Manoram Sahu</b>
17:05 - 17:10 hrs	Safety and feasibility of day care e-TEP meshplasty for para-umbilical hernias - a single center experience	<b>Manoj Ayyappath</b>
17:10 - 17:15 hrs	Comparison between two methods of laparoscopic trocar entry – visiport vs. open technique in eTEP hernia repair	<b>S. Prasna</b>
17:15 - 17:20 hrs	Puboubilical distance measurement - a new clinical examination finding for an eTEP surgeon	<b>S. Prasna</b>
17:20 - 17:25 hrs	Optimizing laparoscopic eTEP inguinal hernia repair: challenges and solutions	<b>Nazrah Shaikh</b>
17:25 - 17:30 hrs	Laparoscopic ventral TAPP hernioplasty for post-whipple chevron incisional swiss cheese hernias	<b>Suprashant Kulkarni</b>
17:30 - 17:35 hrs	Laparoscopic ventral TAPP hernioplasty for swiss cheese incisional hernias of left paramedian incision	<b>Suprashant Kulkarni</b>
17:35 - 17:40 hrs	Outcomes of small umbilical hernia repair in a tertiary hospital	<b>Aditya Baksi</b>
17:40 - 17:45 hrs	A single-center retrospective analysis of the total number of ventral hernias performed in the last 5 years	<b>Gouni Anvitha Reddy</b>

Saturday 8<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
------	-------	---------

## Mind what matters

*AWR Europe*

Chairs: **David Ross, Roy Hong, J.B. Agrawal, Meenakshi Sharma**

08:00 – 08:04 hrs	Introduction	David Ross
08:04 – 08:16 hrs	The danger of operating by numbers in AWR	Andrew de Beaux
08:16 – 08:30 hrs	An overview of open repairs: how far have we travelled?	David Ross
08:30 – 08:44 hrs	Seven lessons in the prevention and treatment of complications	Todd Heniford
08:44 – 08:54 hrs	Seromas and their management	Roy Hong
08:54 – 09:06 hrs	Principles of management of umbilical hernias	Lars Nannestad Jørgensen
09:06 – 09:18 hrs	Management of the complex umbilical hernia	Frederik Berrevoet
09:18 – 09:30 hrs	Re-recurrent Ventral hernias	Mette Willaume
09:30 – 09:44 hrs	The Core: it's not what you think!	Ramana Balasubramaniam
09:44 – 10:00 hrs	Q & A and Welcome to AWRE '26	David Ross

## Gyri, sulci and bulges

*AWR Surgeons Community*

Chairs: **Flavio Malcher, Abhay Dalvi, Prasanna Kumar Reddy, Vinal More**

10:00 – 10:20 hrs	The making of a surgeon	Roy Patankar
10:20 – 10:40 hrs	Challenges of a complex AWR practice in India	Ramesh Punjani
10:40 – 11:00 hrs	Hidden in plain sight	Pramod Shinde

Saturday 8<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
<b>Perspectives</b> <i>AWR Europe Keynotes</i> Chairs: <b>David Ross, Frederik Berrevoet, Anita Jacobs, Govindaraj K</b>		
11:00 – 11:20 hrs	Do or do not, there is no try: avoiding and managing complications in TAR procedures	Yuri Novitsky
11:20 – 11:40 hrs	Handling the unfamiliar case	David Chen
11:40 – 12:00 hrs	Humility and pride: reflections of a hernia surgeon	C Palanivelu
<b>INDUSTRY SESSION: TBA</b> Chairs : <b>Rajesh Shrivatsava, Vivek Bindal, Premkumar Balachandran</b>		
12:00 - 12:08 hrs	<b>Medtronic</b> - Ventral hernia repair in india: a delphi consensus	Muralidhar S Kathalagiri
12:08 - 12:23 hrs	<b>Intuitive</b> - Future of patient care - digitally enabled and technology driven	Rohitt Mahajan
12:23 - 12:31 hrs	<b>Fasciotens</b> - Lill History of fascial traction	Gereon Lill
12:31 - 12:39 hrs	<b>Lotus</b> - Opti- view access in ETEP inguinal and ventral hernia repair- technical aspects and advantages	Barath Cumar
12:39 - 12:47 hrs	<b>Meril</b> - From Sleeve to Strength: Advancing Surgical Techniques and Innovations	Rajesh Srivastava
12:47 - 12:55 hrs	<b>Braun</b> - Mesh fixation practices in hernia surgery- pros and cons	Suprashant Kulkarni
12:55 - 13:03 hrs	<b>Johnson and Johnson</b> - Hernia prevention: evidence based abdominal closure	Vishaka Kalikar
13:03 - 13:11 hrs	<b>Johnson and Johnson</b> - Defect closure using barbed sutures	Manish Mehta
13:11 - 13:19 hrs	<b>Stryker</b> - why fluorescence in hernia surgery?	Arun Prasad
13:19 - 13:27 hrs	<b>BD</b> - Breaking barriers in hernia surgery- strength meets safety with innovative mesh solutions	Jignesh Gandhi
13:27 - 13:35 hrs	<b>Esstiy</b> - Bind, inhibit, remove: Sorbact's role in infection-free AWR	Jignesh Gandhi

Saturday 8<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
<b>Robotic AWR - here to stay!</b> <i>RAWS</i> Chairs: <b>Filip Muysoms, Vivek Bindal, Annabelle De Troyer, Udipta Ray</b>		
13:45 – 13:57 hrs	<b>Robotic ventral hernia repair is here to stay!</b> Danish hernia registry data: cost effectiveness of robotic ventral hernia repair	<b>Nadia Henriksen</b> <b>Vivek Bindal</b>
13:57 – 14:09 hrs	Robotic platforms available for ventral hernia repair	
<b>Technical video session</b>		
14:09 – 14:21 hrs	Robotic transabdominal access for ventral hernia repair: TAPP or TARM	<b>Somyaa Khuller</b> <b>Victor Radu</b> <b>Mette Willaume</b> <b>Flavio Malcher</b> <b>Ankit Patel</b>
14:21 – 14:33 hrs	Robotic extraperitoneal access for ventral hernias	
14:33 – 14:45 hrs	Robotic transversus abdominis release	
14:45 – 14:57 hrs	Robotic approach to rectus diastasis	
14:57 – 15:09 hrs	Lessons from robotic surgery complications	
<b>The Known Unknowns</b> <i>ANZ session</i> Chair: <b>Rod Jacobs, Ramana Balasubramaniam, Joana Correia, Sudheer OV</b>		
15:15 – 15:21 hrs	Do we need TAR at all?	<b>Alex Karatassas</b> <b>Anders Olsson</b> <b>Anita Jacombs</b> <b>David Wardill</b> <b>Kellee Slater</b> <b>Hugh McGregor</b> <b>Oliver M Fisher</b> <b>Krishna Boddu</b> <b>All faculty</b>
15:21 – 15:27 hrs	There is no role for biological mesh in 2025	
15:27 – 15:33 hrs	Is a single stage ventral hernia repair with concomitant other abdominal procedures a wise choice?	
15:33 – 15:39 hrs	Anterior fascial closure techniques	
15:39 – 15:45 hrs	Physical exercise after hernia repair: how soon?	
15:45 – 15:51 hrs	Every umbilical hernia repair needs mesh!	
15:51 – 15:57 hrs	Operating on sonographic groin hernias only gives pain	
15:57 – 16:03 hrs	Management of post operative persistent and chronic pain syndromes	
16:03 – 16:30 hrs	Q & A	

Saturday 8<sup>th</sup> March 2025

HALL - MADRAS

TIME	TOPIC	SPEAKER
<b>Open Abdomen: A global narrative/challenges and opportunities</b> <i>Portuguese Society of Surgery</i> Chairs: <b>Eva Barbosa, Frederik Berrevoet, Rajiv Raj, Dinesh Kumar Bagaria</b>		
16:30 – 16:38 hrs	Indications for open abdomen – current evidence	<b>Frederik Berrevoet</b>
16:38 – 16:48 hrs	“Clip and drop” – are we overdoing it?	<b>Joana Correia</b>
16:48 – 16:58 hrs	Enhanced fast closure – how to achieve it?	<b>Kellee Slater</b>
16:58 – 17:08 hrs	The hostile open abdomen – time to give up?	<b>Eva Barbosa</b>
17:08 – 17:18 hrs	My OA nightmares	<b>Gereon Lill</b>
17:18 – 17:28 hrs	ECF and EAF - management 101	<b>CD Narayanan</b>
<b>OA: Current trends in global practice</b>		
17:28 – 18:00 hrs	Panel discussion	Moderator: <b>Eva Barbosa</b>  Panelists: <b>Heather Bougard,</b> <b>Gereon Lill,</b> <b>Frederik Berrevoet,</b> <b>Rod Jacobs</b>
18:00 hrs	<b>Closing Remarks - Pramod Shinde</b>	

Saturday 8<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>Cleveland Calling! (Online Session)</b> Chairs: <b>Jorge Daes, Raghunath KJ, Brij Banga, Preethi M</b>		
08:00 – 08:12 hrs	Managing loss of domain hernias	<b>Clayton Petro</b>
08:12 – 08:24 hrs	Physiologic changes and associated outcomes of tension on the abdominal wall during component separation	<b>Ben Miller</b>
08:24 – 08:36 hrs	Chronic groin pain: who is it more painful for? patient or surgeon?	<b>David Krpata</b>
08:36 – 08:48 hrs	Hernia repairs in contaminated settings: fight or flight?	<b>Lucas Beffa</b>
08:48 – 09:00 hrs	Q & A	<b>All faculty</b>
<b>Keynote session (Online Session)</b> <i>Northwestern University, Chicago</i> Chairs: <b>Nir Messer, Ashvind Bawa, Lakshmi Kona, Chinmay Gandhi</b>		
09:00 – 09:30 hrs	Improving outcomes through collaboration : why is it so hard for us?	<b>Michael Rosen</b>
<b>Mesh updates</b> <i>AWR Surgeons Community</i> Chairs: <b>Ioannis Georgiannis, Anmol Ahuja, Aparna Govil Bhasker, Rajavel Kannaiyan</b>		
09:30 – 09:42 hrs	<b>Debate A. Mesh usage in contaminated repairs: practice versus evidence</b> The case for biologics	<b>Todd Heniford</b>
09:42 – 09:54 hrs	The case for synthetics	<b>Yuri Novitsky</b>
09:54 – 10:12 hrs	<b>Debate B. Self gripping vs 3D meshes in inguinals:</b>	<b>Hugh McGregor</b>
10:12 – 10:22 hrs	<b>Mesh updates</b>	VS. <b>Deepak Subramanian</b>
10:22 – 10:30 hrs	Q & A	<b>Jan Kukleta</b>
		<b>All faculty</b>

Saturday 8<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>Hiatus hernia - what has changed?</b> <i>Emory University</i> Chairs: <b>Ankit Patel, Parthasarathy Govindaraju, Anisha Ashok, P. Senthilnathan</b>		
10:30 – 10:40 hrs	A rational approach to the problem	<b>Charu Paranjape Kumar Krishnan Roy Patankar Nir Messer Prakash Gatta Ankit Patel Sunil Popat Prasad Bhukebag All faculty</b>
10:40 – 10:50 hrs	Endoscopic approaches	
10:50 – 11:00 hrs	PORSHA flap -- indications and technique	
11:00 – 11:10 hrs	Advancements and innovations in paraesophageal hernia repair	
11:10 – 11:20 hrs	My top 10 technique points in fundos	
11:20 – 11:30 hrs	The migrated wrap	
11:30 – 11:40 hrs	Revision surgery in failed hiatal repairs	
11:40 – 11:50 hrs	Innovative approaches in hiatus hernia repair: current trends and future directions	
11:50 – 12:00 hrs	Q & A	
<b>Crossover - Program Building in Abdominal Wall Reconstruction</b> <i>Carolinas Medical Centre</i> Chairs: <b>Todd Heniford, Lars Nannestad Jørgensen, Sullivan Ayuso</b>		
12:00 – 12:25 hrs	Mentorship in AWR - responsibilities as an attending and a trainee	<b>Todd Heniford and Sullivan Ayuso David Chen and Conrad Ballecer Lars Nannestad Jørgensen and Nadia Henriksen David Ross All faculty</b>
12:25 – 12:40 hrs	How to effectively train hernia surgeons	
12:40 – 12:55 hrs	Building a career in AWR research	
12:55 – 13:10 hrs	How to develop an academic surgical division	
13:10 – 13:30 hrs	Q & A	
13:30 – 14:00 hrs	<b>Lunch</b>	

Saturday 8<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>Novelty in the hernia world: digging deeper</b> <i>Italian Society of Hernia and Abdominal Wall Surgery</i> Chairs: <b>Federico Fiori, Alessandro Carrara, Madhuri Patnaik, Varun Raju Thirumalagiri</b>		
14:00 – 14:10 hrs	Zanellato classification of hernias	<b>Artur Zanellato</b>
14:10 – 14:20 hrs	Fasciotens hernia	<b>Henning Niebuhr</b>
14:20 – 14:30 hrs	Titanised meshes : for IPOM or AWR?	<b>Bernd Stechemesser</b>
14:30 – 14:40 hrs	Rovereto technique for AWR	<b>Alessandro Carrara</b>
14:40 – 14:50 hrs	Novel management of peritoneal defect in hernia surgery	<b>Abhishek Tiwari</b>
14:50 – 15:00 hrs	Falciform ligament flap for ventral hernia repair Q & A	<b>Jagpreet Singh Deed</b> <b>All faculty</b>
<b>Patient-Focused Hernia Surgery: Crafting Compassionate, Effective, and Comprehensive Care</b> <i>British Hernia Society</i> Chairs: <b>Artur Zanelatto, Praminthra Chitsabesan</b>		
15:00 – 15:12 hrs	The art of communication: building trust and understanding with hernia patients	<b>Praminthra Chitsabesan</b>
15:12 – 15:24 hrs	Management of the post partum abdomen	<b>David Ross</b>
15:24 – 15:36 hrs	Personalized care: tailoring hernia treatment to individual patient needs	<b>Ileana Geogloman</b>
15:36 – 15:48 hrs	Prepping for success: the essential steps before hernia surgery	<b>Aali Sheen</b>
15:48 – 16:00 hrs	Q & A	<b>All faculty</b>

Saturday 8<sup>th</sup> March 2025

HALL - BOMBAY

TIME	TOPIC	SPEAKER
<b>YT Session</b> <i>AWR Surgeons Community</i> Chairs: <b>Naveen Alexander, Rucha Naval, Satyakumar Barla, KJ Kiran</b>		
16:00 - 16:07 hrs	Surgical outcomes of ventral and inguinal hernia repair in peritoneal dialysis patients: a single-center experience	<b>Yoel Chocron</b>
16:07 - 16:14 hrs	Unique findings in the inguinal canal : cysts and lipomas	<b>Pinto Mier Gilad</b>
16:14 - 16:21 hrs	Incarcerated groin hernia repair - open vs lap	<b>Ahmad Jaber</b>
16:21 - 16:28 hrs	Surgery, robotics & artificial intelligence-a shifting paradigm in outcome delivery	<b>Prakash Gatta</b>
16:28 - 16:35 hrs	Obesity and hernias: it is more complex than you thought!	<b>Roshan Ariyaratnam</b>
16:35 - 16:42 hrs	From scalpels to spreadsheets	<b>Ashvind Bawa</b>
16:42 - 16:49 hrs	Management of large inguinoscrotal hernias with the hybrid technique	<b>Piyush Patwa</b>
16:49 - 16:56 hrs	Robotic e tep ventral - how to cross over	TBA
16:56 - 17:03 hrs	Laparoscopic management (TAPP) of iliac crest bone graft hernia	<b>Anirudh Venkatesan</b>
17:03 - 17:10 hrs	Is less the new more?	<b>Anisha Ashok</b>
17:10 - 17:17 hrs	Cadaveric liver transplant patients treated for incisional hernia	<b>Kedar Patil</b>
17:17 - 17:24 hrs	Early integration of RAS in AWR MAS career	<b>Subbiah TS</b>

## Manic Monday

*AWR Surgeons Community*

Chairs: **Sujith Wijerathne, CD Narayanan, Ashwin Thangavelu, Pabithadevi B. Mehanathan**

17:30 – 17:36 hrs	Mesh salvage after sleeve gastrectomy leak	<b>HV Shivaram</b>
17:36 – 17:42 hrs	Mesh erosion into the large bowel management	<b>Sendhil Kumar K</b>

**Saturday 8<sup>th</sup> March 2025**

**HALL - BOMBAY**

<b>TIME</b>	<b>TOPIC</b>	<b>SPEAKER</b>
17:42 – 17:48 hrs	Rare complication of open onlay mesh repair	<b>Keyur Yagnik</b>
17:48 – 17:54 hrs	Post TAP block hematoma in a case of TAPP lap inguinal hernia repair	<b>Aman Arora</b>
17:54 – 18:00 hrs	Dual repair for a ruptured diagrammatic eventration	<b>Vishakha Kalikar</b>
18:00 – 18:06 hrs	Linea alba crater	<b>Anmol Ahuja</b>
18:06 – 18:12 hrs	Compartment syndrome post AWR	<b>Christopher SK</b>
18:12 – 18:18 hrs	Inguinodynia treatment by triple neurectomy	<b>Sabari Girieasen</b>
18:18 – 18:24 hrs	Bile in drain post eTEP incisional hernia	<b>Sandeep Varghese</b>

Saturday 8<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Decoding AI in AWR</b> <i>University of Western Australia</i> Chairs: <b>Hairul Ahmad, Jignesh Gandhi, Inian Samarasam, Balamurugan J</b>		
08:00 – 08:15 hrs	Introduction to AI & basic understanding	<b>Kshitij Jadhav</b>
08:15 – 08:30 hrs	AI and surgeons' cognition	<b>Hairul Ahmad</b>
08:30 – 08:45 hrs	AI and the AWR surgeon: my journey	<b>Jignesh Gandhi</b>
08:45 – 09:00 hrs	Practical case scenarios in AI	<b>Kshitij Jadhav</b>
09:00 – 09:15 hrs	Research opportunities and international collaboration	<b>Hairul Ahmad</b>
<b>Atypical and rare hernias (5-pointer series)</b> <i>AWR Surgeons Community</i> Chairs: <b>David Chen, Hari Kumar Ondiveeran, Harshad Mahatme, Alpana Awasthi</b>		
09:15 – 09:23 hrs	Perineal	<b>David Chen</b>
09:23 – 09:31 hrs	Sciatic	<b>Srivatsan Gurumurthy</b>
09:31 – 09:39 hrs	Lumbar	<b>Sumanta Dey</b>
09:39 – 09:47 hrs	Morgagni	<b>Rahul Mahadar</b>
09:47 – 09:55 hrs	Spigelian	<b>Naveen Alexander</b>
09:55 – 10:03 hrs	Parastomal	<b>Arnab Majumder</b>
10:03 – 10:11 hrs	Thoracoabdominal	<b>Conrad Ballecer</b>
10:11 – 10:19 hrs	Bochdalek	<b>Ashwini Krishnamoorthy</b>

Saturday 8<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Pom Pom IPOM</b> <i>AWR Surgeons Community</i> Chairs: <b>Giovanni Scudo, Mário Rui Gonçalves, Naveen Sharma, Shivani Sood</b>		
10:30 - 10:36 hrs	Comparative study between laparoscopic transabdominal preperitoneal repair plus (TAPP+) and laparoscopic intraperitoneal onlay repair plus of umbilical and paraumbilical hernia	<b>Kirthika Arunachalam</b>
10:36 - 10:42 hrs	Long-term outcomes of laparoscopic IPOM plus repair: A single-centre experience	<b>Sundarnathan</b>
10:42 - 10:48 hrs	TIIPOM plus technique for lap ventral hernia	<b>S R Shyam Sundar</b>
10:48 - 10:54 hrs	Efficacy of intracorporeal suturing versus tacker usage for mesh fixation in laparoscopic IPOM ventral hernia repair	<b>Kavin Shanmugavel</b>
10:54 - 11:00 hrs	Post IPOM - dark side of mesh	<b>Monisha P</b>

## Tall Talks

*AWR Surgeons Community*

Chairs: **Aali Sheen, Jaydeep Palep, Saravanan Sanniyasi**

11:00 - 11:08 hrs	Panniculectomy in AWR yes or no?	<b>Mairi McLaren</b>
11:08 - 11:16 hrs	rTAPP 2.0	<b>Ulrich Dietz</b>
11:16 - 11:24 hrs	TARUP- best practices and outcomes	<b>Filip Muysoms</b>
11:24 - 11:32 hrs	An enigma called hernia surgery	<b>P Senthilnathan</b>
11:32 - 11:40 hrs	Robotic mesh repair of lumbar hernias - a case series on surgical feasibility and outcomes	<b>Lakshmi Kona</b>
11:40 - 11:48 hrs	Why should I change as a hernia surgeon?	<b>Parveen Bhatia</b>
11:48 - 11:56 hrs	Midnight management of ventral hernias	<b>Heather Bougard</b>

Saturday 8<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Lesser known operations</b> <i>AWR Surgeons Community</i> Chairs: <b>David Cooke, Alessandro Carrara, Sanjiv Haribhakti, Saravanan Vedhagiri</b>		
12:00 – 12:08 hrs	PeTEP	Ashwin Thangavelu
12:08 – 12:16 hrs	Limited eTEP ventral	Youri Mnouskin
12:16 – 12:24 hrs	Lateral eTEP	Juan Bellido
12:24 – 12:32 hrs	MILoS	Henry Hoffmann
12:32 – 12:40 hrs	TESAR	Federico Fiori
12:40 – 12:48 hrs	MISAR	Gabriele Manetti
12:48 – 13:00 hrs	Q & A	All faculty
13:00 - 14:00 hrs	<b>Medtronic Hugo RAS &amp; Digital Surgery Lunch Symposium</b>	
<b>Biomechanics and hernia surgery: a paradigm shift</b> <i>ANZ Hernia Society</i> Chairs: <b>Alex Karatassas, Hairul Ahmad, Mairi McLaren, Ranjan David</b>		
14:00 – 14:10 hrs	AWR surgeons - architect, engineer or artist?	Rod Jacobs
14:10 – 14:25 hrs	Biomechanics of the abdominal wall-an engineering and functional perspective	Hairul Ahmad
14:25 – 14:40 hrs	Clinical applications of biomechanics in complex AWR - what makes for a sound repair?	Alex Karatassas
14:40 – 14:50 hrs	Future direction-education, research and application	Hairul Ahmad
14:50 – 15:00 hrs	Q & A	All faculty

Saturday 8<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
<b>Loss of domain</b> Danish Hernia Society Chairs: <b>Frederik Helgstrand, Conrad Ballecer, Pinak Dasgupta, Mohanapriya Thyagarajan</b>		
15:00 – 15:05 hrs	Introduction and definition	<b>Frederik Helgstrand</b>
15:05 – 15:15 hrs	When does risk outweigh the gain of surgery?	<b>Mette Willaume</b>
15:15 – 15:25 hrs	Preoperative optimization: what do we really know about smoking, glucose optimization, and obesity?	<b>Nir Messer</b>
15:25 – 15:33 hrs	Case presentation	<b>Todd Heniford</b>
15:33 – 15:40 hrs	Endoscopic management of LOD	<b>Mukund Khetan</b>
15:40 – 16:00 hrs	WWYD - panel discussion Moderators: <b>Frederik Helgstrand, Conrad Ballecer</b>	Panelists <b>Mette Willaume</b> <b>Todd Heniford</b> <b>Kellee Slater</b> <b>Roy Hong</b>

Saturday 8<sup>th</sup> March 2025

HALL - CALCUTTA

TIME	TOPIC	SPEAKER
------	-------	---------

## Potpourri

*ASI Chennai Chapter*

Chairs: **Hari Kumar Ondiveeran, Neelamegam TK, Patta Radhakrishna, Selvarajkumar Ayyadurai**

16:00 - 16:08 hrs	Synchronous lap chole and mesh implantation - single centre	<b>Ravindran Kumaran</b>
16:08 - 16:16 hrs	Robotic P-TEP for groin hernia	<b>Harish Kakkilaya</b>
16:16 - 16:24 hrs	TAPP for ventral hernias	<b>Kannan Rangasamy</b>
16:24 - 16:32 hrs	Prolene hernia system under LA	<b>Major R S Rengan</b>
16:32 - 16:40 hrs	Robotic preperitoneal repairs in ventral hernia	<b>Muralidhar Kathalagiri</b>
16:40 - 16:48 hrs	Groin hernia: many ways to bell a cat!	<b>John Thanakumar</b>
16:48 - 17:00 hrs	Try & Try till you succeed	<b>Somyaa Khuller</b>

## Council of Disasters

*Chennai Hernia Society*

Chairs: **Kiyotaka Imamura, Rajasenthil V, Arulappan T, Pavithra Umashankar**

17:00 - 17:06 hrs	Laparoscopic removal of infected mesh – our initial experience	<b>Ramya Ranjan Behara</b>
17:06 - 17:12 hrs	Diaphragmatic injury in E-TEP incisional hernioplasty	<b>Mohsinur Rohman</b>
17:12 - 17:18 hrs	Fecal contamination in ETEP-RS	<b>Abirami K</b>
17:18 - 17:24 hrs	Laparoscopy for obstructed hernia - No or Yes?	<b>Shaishav Patel</b>

## Closing Remarks

17.30 hrs

Saturday 8<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
<b>Ventral 5</b> Chairs: <b>Kiyotaka Imamura, Siddharth Tamaskar, Rohit Dadhich, Senthil M</b>		
09:00 - 09:05 hrs	A comparative study on outcomes and quality of life (QoL) following ventral transabdominal preperitoneal (Ventral-TAPP) and laparoscopic intraperitoneal onlay mesh (IPOM-Plus) repair for ventral hernia	<b>Ansari MA</b>
09:05 - 09:10 hrs	Lateral abdominal wall hernia - a real difficulty to treat?	<b>Shrikant Yadav</b>
09:10 - 09:15 hrs	Pain-free path to recovery: prophylactic TAP block in IPOM Plus for enhanced ventral hernia repair outcomes	<b>Nithin Bangaradka</b>
09:15 - 09:20 hrs	Excellence with minimal disruption: the ETEP technique for effective lumbar hernia repair	<b>Nithin Bangaradka</b>
09:20 - 09:25 hrs	Extended view total extraperitoneal mesh repair of large divarication of recti using three port right side entry technique	<b>Manoj Ayyappath</b>
09:25 - 09:30 hrs	A case series of laparoscopic spigelian hernioplasty (TAPP) for spigelian hernia	<b>Surya Priya</b>
09:30 - 09:35 hrs	Hybrid technique for large lateral incisional hernia	<b>Shaishav Patel</b>
09:35 - 09:40 hrs	TBA	<b>Koorapati Ramesh</b>
09:40 - 09:45 hrs	Hernioplasty for a large midline incisional hernia through total extraperitoneal approach with bilateral transversus abdominis release using three port right side entry technique	<b>Manoj Ayyappath</b>
09.45 - 09.50 hrs	To evaluate the out comes of laparoscopic versus open hernia repair for ventral (m3) hernias	<b>Santoshi Pasar</b>

## Ventral 6

Chairs: **Paul Trinity Stephen D, Vinod Jangra, Vinay Mehendale, Venkatasubramanian R**

10:00 - 10:05 hrs	Enhanced-view total extraperitoneal repair rives stoppa (eTEP RS) 3-port technique for a primary ventral hernia	<b>Arun Kumar</b>
10:05 - 10:10 hrs	Unilateral ETEP with TAR for right flank incisional hernia	<b>Ashesh Kumar Jha</b>
10:10 - 10:15 hrs	Minimally invasive management of lateral abdominal wall hernias - E TEP single center experience	<b>Manchala Akhilesh</b>
10:15 - 10:20 hrs	Does sac excision in laparoscopic IPOM plus provide better outcomes? - a single tertiary care center experience	<b>Rishabh Agarwalla</b>
10:20 - 10:25 hrs	Perioperative outcomes of incisional hernia repair for patients with inflammatory bowel disease: risks and benefits	<b>Eliad Karin</b>

**Saturday 8<sup>th</sup> March 2025**

**HALL - POONA**

<b>TIME</b>	<b>TOPIC</b>	<b>SPEAKER</b>
10:25 - 10:30 hrs	Management and reconstruction of complex traumatic lateral abdominal wall hernia: a case study	<b>Feras Alsannaa</b>
10:30 - 10:35 hrs	Comparative study of laparoscopic rectorectus ETEP repair with IPOM plus repair for primary ventral hernia	<b>Divya Priya</b>
10:35 - 10:40 hrs	A comparative study to assess surgical outcomes of concomitant laparoscopic intraperitoneal onlay mesh repair with other clean contaminated surgeries compared to laparoscopic intraperitoneal onlay mesh repair alone - a clinical evaluation	<b>Sarana Venkata Anuja</b>
10:40 - 10:45 hrs	Laparoscopic enhanced (extended) view total extraperitoneal (eTEP) repair vs laparoscopic trans abdominal retromuscular (TARM) repair in ventral hernias - a comparative study	<b>Ashwin Rangan</b>
10:45 - 10:50 hrs	IPOM - a retrospective study	<b>Ludia John</b>

## **Complications 1**

Chairs: **Anil Kumar, Neeraj Rayate, Sanjay Kala, M Sabari Girieasen**

11:00 - 11:05 hrs	Major bleeding post-laparoscopic inguinal hernia repair	<b>Manish Mehta</b>
11:05 - 11:10 hrs	Navigating complexity: bilateral abdominal wall palsy following eTEP retrorectus ventral hernia repair	<b>Ozair Hassan</b>
11:10 - 11:15 hrs	Overcoming challenges: laparoscopic IPOM with bladder injury repair in a ventral hernia case	<b>Cibhi SP</b>
11:15 - 11:20 hrs	Posterior rectus sheath disruption- unique complication of retro-rectus repairs	<b>Adarsh Chand</b>
11:20 - 11:25 hrs	Laparoscopic resection and anastomosis for inverted Meckel's diverticulum intussusception a week after eTEP RS for umbilical hernia - case report	<b>Bhagyashree</b>
11:25 - 11:30 hrs	When ventral hernia repair went awry	<b>Monisha P</b>
11:30 - 11:35 hrs	Prevesical venous plexus bleed during mesh fixation with a tacker	<b>Harmandeep Singh Jabbal</b>
11:35 - 11:40 hrs	From incision to complications: unraveling a case of burst abdomen	<b>Tenneti Venkata Praneeth</b>
11:40 - 11:45 hrs	A bundle of disaster post TAH obstructed incisional hernia – all possible events well taken	<b>Mantu Kumar</b>
11:45 - 11:50 hrs	Complex surgical management of recurrent incisional hernias with mesh migration, bowel obstruction, and sepsis: a case report	<b>Ramkaran Chaudhary</b>

Saturday 8<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
<b>Complications 2</b> Chairs: <b>Eva Barbosa, Ram Prajapati, Sapan Ashok Jain, Jagpreet Singh Deed</b>		
12:00 - 12:05 hrs	Panniculectomy at the time of abdominal wall hernia repair reduces hernia recurrence rates in obese patients.	<b>Thomas G Mackay</b>
12:05 - 12:10 hrs	An institutional cross-sectional study to analyze the surgical site infections (ssi) in prosthetic mesh repair for ventral hernias	<b>Arvind Pratap</b>
12:10 - 12:15 hrs	Long-standing chronic groin wound discharge after tapp surgery: key management challenges	<b>Feras Alsannaa</b>
12:15 - 12:20 hrs	Spontaneous evisceration of small bowel in incisional hernia	<b>Richa Pandey</b>
12:20 - 12:25 hrs	Management of a case of Post IPOM mesh rejection/infection	<b>Gautham Balakrishna</b>
12:25 - 12:30 hrs	Is mesh removal the answer to chronic pain: a systematic review and meta-analysis	<b>Nilosh Sathiyamoorthi</b>
12:30 - 12:35 hrs	Parastomal hernias - challenges and new horizons	<b>Ketan Banerjee</b>
12:35 - 12:40 hrs	The burst abdomen dilemma: understanding causes and management	<b>Tenneti Venkata Praneeth</b>
12:40 - 12:45 hrs	Burst abdomen: challenges in postoperative recovery and management	<b>Tenneti Venkata Praneeth</b>

## Components 1

Chairs: **Wolfgang Reinpold, Muralidhar Kathalagiri, Jageshwar Pandey, Charles Mano Sylus**

14:00 - 14:05 hrs	Outcomes of posterior sheath supplementation with vicryl mesh in TAR	<b>Fahim Kanani</b>
14:05 - 14:10 hrs	Peritoneal flap harvested from incisional hernia for closure of peritoneal defect during TAPP for incisional hernia	<b>Naveen Sharma</b>
14:10 - 14:15 hrs	Concomitant cholecystectomy and eTEP TAR with use of non-overlapping ports	<b>Kumaran GP</b>
14:15 - 14:20 hrs	Emergency abdominal wall reconstruction for complex hernias: feasibility, surgical outcomes, and postoperative recovery	<b>Feras Alsannaa</b>
14:20 - 14:25 hrs	Management of complex incisional hernia - Insights from a tertiary care center	<b>Rashmiranjan Sahoo</b>

Saturday 8<sup>th</sup> March 2025

HALL - POONA

TIME	TOPIC	SPEAKER
14:25 - 14:30 hrs	A large incisional hernia managed with patience	Kedar Pratap Patil
14:30 - 14:35 hrs	Role of peritoneal sac harvestment in avoiding unnecessary TAR in laparoscopic eTEP RS	Nitin Baste
14:35 - 14:40 hrs	Is transversus abdominis release (TAR) a good answer for giant abdominal hernias? A prospective study from a high-volume center	Penubothu Aravind
14:40 - 14:45 hrs	Laparoscopic eTEP RS B/L TAR for complex large incisional hernia M3M4M5/W3 with? Loss of domain after APR with permanent colostomy in situ	Nitin Baste

## Hiatus Affairs 1

Chairs: **Giovanni Scudo, Joana Fernandes Correia, Prasad Bhukebag, JKA Jameel**

15:00 - 15:05 hrs	Diaphragmatic injury at Sternocostal Triangle	Manish Mehta
15:05 - 15:10 hrs	Laparoscopic management of large paraoesophageal hernia presented as acute gastric volvulus: a rare case report	Piyush Kumar Agrawal
15:10 - 15:15 hrs	GAUZE as GUARD in laparoscopic Nissen fundoplication	S. R. Shyam Sundar
15:15 - 15:20 hrs	When breathlessness signals a hernia: laparoscopic management of diaphragmatic defect	Nithin Bangaradka
15:20 - 15:25 hrs	Laparoscopic management of acute traumatic diaphragmatic hernia	Harshad Mahatme
15:25 - 15:30 hrs	Organoaxial gastric volvulus in paraesophageal hiatal hernia: a rare case	Richa Pandey
15:30 - 15:35 hrs	Laparoscopic eTEP RS TAR for acquired abdominal trans diaphragmatic intercostal hernia with peritoneal sac harvestment with large polypropylene mesh repair	Nitin Baste
15:35 - 15:40 hrs	Laparoscopic management of large diaphragmatic hernia	Aditya Baksi
15:40 - 15:45 hrs		

**Saturday 8<sup>th</sup> March 2025**

**HALL - POONA**

<b>TIME</b>	<b>TOPIC</b>	<b>SPEAKER</b>
<b>Mesh Matters &amp; Rare Hernia</b>		
Chairs: <b>Nadia Henriksen, Dinesh Kumar Bagaria, Madhu Prakash Karanwal, Amit Acharya</b>		
16:00 - 16:05 hrs	Broad ligament hernia - a rare entity causing intestinal obstruction	<b>Susmita Das</b>
16:05 - 16:10 hrs	Rare ischiatic incarcerated hernia repair	<b>Zahalka Alaa</b>
16:10 - 16:15 hrs	Obturator hernia repair in obstruction	<b>Debasish Patnaik</b>
16:15 - 16:20 hrs	Spigelian hernia	<b>D. Parivallal</b>
16:20 - 16:25 hrs	Chronic protruding mesh of hernial repairs - intervene or not	<b>Mantu Kumar</b>
16:25 - 16:30 hrs	Laparoscopic management of large parahiatal hernia (PHH)	<b>Suprashant Kulkarni</b>
16:30 - 16:35 hrs	Traumatic spigelian hernia presenting as acute abdomen	<b>Sahith Chandra Nimmagadda</b>
16:35 - 16:40 hrs	Modified lockwood technique for management of giant femoral hernia in a male	<b>Vikas C Kawarat</b>
16:40 - 16:45 hrs	Litre's hernia presenting as intestinal obstruction	<b>Saicharan Reddy</b>
16:45 - 16:50 hrs	Abdominal wall reconstruction by posterior component separation with bilateral fascia lata flap for a case of huge desmoid tumour - stump the experts	<b>Sinduja S</b>
16:50 - 16:55 hrs	Incarcerated cecum in a uterine broad ligament hernia	<b>Varun</b>

Saturday 8<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
<b>Stoma &amp; Tissue Repairs</b> Chairs: <b>Chathuranga Keppetiyagama, Major RS Rengan, Avinash Katara</b>		
09:00 - 09:05 hrs	Concomitant retromuscular repair with parastomal hernia	<b>Fahim Kanani</b>
09:05 - 09:10 hrs	Strengthening the core - three hernias, one solution, a lifetime of recovery	<b>Sravya Inampudi</b>
09:10 - 09:15 hrs	Laparoscopic repair of parastomal hernia using transabdominal retromuscular modified sugarbaker technique with Preoperative botox in a case of loss of domain: a case report	<b>Rahul Naik</b>
09:15 - 09:20 hrs	A dual challenge: minimally invasive combined repair of parastomal and bilateral inguinal hernias with TEP and modified keyhole procedure	<b>Nithin Bangaradka</b>
09:20 - 09:25 hrs	Successful management of parastomal hernia with laparoscopic keyhole mesh technique	<b>A Kavya</b>
09:25 - 09:30 hrs	Laparoscopic eTEP RS for umbilical, bilateral inguinal and obturator hernia with umbilical and inguinal defect closure	<b>Nitin Baste</b>
09:30 - 09:35 hrs	Laparoscopic management of large recurrent parastomal hernia with colostomy prolapse in an operated case of APR with recent h/o intestinal obstruction	<b>Suprashant Kulkarni</b>
09:35 - 09:40 hrs	Robotic pauli repair (sublay sugarbaker) for a symptomatic huge parastomal + midline incisional swisscheese hernias	<b>Suprashant Kulkarni</b>
<b>Imaging &amp; Inguinal</b> Chairs: <b>Artur Zanellato, Pravin Shinde, Anirudh Venkatesan</b>		
10:00 - 10:05 hrs	The role of ultrasonography in advancing abdominal wall reconstruction and hernia surgery	<b>Nishit Patel</b>
10:05 - 10:10 hrs	Laparoscopic orchidopexy with concurrent hernia repair: an advanced approach to pediatric abdominal wall reconstruction	<b>Nishit Patel</b>
10:10 - 10:15 hrs	Can surgeons accurately identify mesh type when interpreting computed tomography scans after ventral hernia repair?	<b>Fahim Kanani</b>
10:15 - 10:20 hrs	TAPP in bladder sliding right inguinal hernia repair	<b>Rajesh Mahida</b>
10:20 - 10:25 hrs	A novel application of AI-assisted CT navigation – makes eTEP an ‘easy TEP’	<b>Parthasarathy Govindaraju</b>
10:25 - 10:30 hrs	Status of lichtenstein’s repair in the indian scenario	<b>Anirudh Arora</b>

Saturday 8<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
10:30 - 10:35 hrs	Identification of anatomical landmarks in e-TEP ventral hernia repair - conventional vs imaging technique	Aravind K
10:35 - 10:40 hrs	Ergonomics in eTEP vs. TEP: a new perspective on surgeon-reported outcomes	Aayush Bhadani
10:40 - 10:45 hrs	Evaluation of the out comes of laparoscopic transabdominal preperitoneal hernia repair versus lichtenstein's hernioplasty	Srinivas Yadav

## Complications & Components

Chairs: **Santhosh Anand, Manoj Bharucha, TS Subbiah**

11:00 - 11:05 hrs	Posterior component separation with transversus abdominis release for large ventral hernias in a peripheral medical college in west bengal	Avijit Roy
11:05 - 11:10 hrs		
11:10 - 11:15 hrs	Unusual complication of complicated POVH	Abusalih Adel
11:15 - 11:20 hrs	"Double jeopardy" - a case of polytrauma with challenging abdominal breach and its complications	Shreekanth Ramanathan
11:20 - 11:25 hrs	Anatomy of an unusual complication: Insights from an eTEP hernia repair case	Muddassir Nisar Shahdhar
11:25 - 11:30 hrs	Lessons learned navigating postoperative complications in subcostal hernia	Aakriti Shankar Ganesh
11:30 - 11:35 hrs	The Madrid posterior component separation	Nitin Paul Ambrose
11:35 - 11:40 hrs	Laparoscopic eTEP and limited TAR for M2W2 incisional hernia	Samarendra Nath Tripathi
11:40 - 11:45 hrs	Progressive pneumoperitoneum: a novel technique in management of incisional hernia with loss of domain	Tenneti Venkata Praneeth

Saturday 8<sup>th</sup> March 2025

HALL - BARODA

TIME	TOPIC	SPEAKER
<b>Ventral 7</b> Chairs: <b>Thomas Aufenberg, Amaravani Medithe, Kannan Rajendran</b>		
14:00 - 14:05 hrs	Reverse transversus abdominis muscle release for lateral and flank hernia	<b>Richa Pandey</b>
14:05 - 14:10 hrs	Safety and feasibility of concomitant ventral hernia repair and total laparoscopic hysterectomy, large scale retrospective analysis	<b>Punitha ANR</b>
14:10 - 14:15 hrs	Unveiling the risk of port site hernia following IPOM procedure	<b>Tarun Sai</b>
14:15 - 14:20 hrs	Redefining complex hernias for our representative patient population	<b>Keerthi Visagan</b>
14:20 - 14:25 hrs	Optimising complex hernia repair: the role of Botox and progressive preoperative pneumoperitoneum in preoperative muscle relaxation	<b>Punitha ANR</b>
14:25 - 14:30 hrs	Outcomes of laparoscopic suture rectopexy versus laparoscopic mesh rectopexy: a systematic review and meta-analysis	<b>Meena Kumari</b>
14:30 - 14:35 hrs	Forage mesh	<b>Gautham G</b>
